

Gunnebo SafeDeposit D6 family

Bringing high speed and maximum capacity
in one cash deposit unit

Run on Zen D, our flexible software designed to give you total control over your cash deposit devices.

ZEN D adapts and connects to all your devices, applications and external software, creating a perfect and secure ecosystem, where you can manage your entire business, from a single platform. Giving "Smart Cash

Management" a whole new meaning.

ZEN D software modules are designed to give you total control over your cash deposit devices with modular technology and tailored feature packages which allow you to add or remove functionalities based on your needs.

GUNNEBO[®]

Gunnebo SafeDeposit D6 family

Bringing high speed and maximum capacity in one cash deposit unit

The high-speed range has been designed to adapt to the pace of big companies and provide greater performance and flexibility in all cash deposit transactions.

Today's economy has driven consumers to use less credit and more cash, growing the amount of paper transactions worldwide. Manually managing the flow of currency into business, represents a high cost-low return task, which also carries significant security risks. Automation offers significant potential for increasing productivity of the entire process.

Retail solutions with CIT features

- For businesses dealing with many customers, employees and suppliers every day, the D6 is your best option.
- The capacity and speed of the deposit unit allow you to streamline cash flow, cut on time-

consuming operations and ensure a secure environment for your customers and employees.

- Stacked banknotes in bag in semi-stacker (D6SS) version.
- Multicurrency in the same transaction.
- Multilanguage.
- Gunnebo One Time Code system to open the safe.
- Visual and tactile interface via colour touch screen.
- Real time accountancy of each transaction.
- With the D6 unit you can also benefit from a range of additional options, depending on your individual needs, including coin and semi stacker versions.
- Also available is installation through the wall to allow the opening of the safe from the rear side of the machine and note stacker within the bag, saving time.
- Extra capacity available in the D6L model.

Benefits

Gunnebo ZEN D Software

Gunnebo software platform for deposit devices with endless capabilities to embrace the future.

Hyperconnectivity

ZEN D connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

Omnipresent Access

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

Endless Adaptability

Designed to be flexible and modular, ZEN adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

Flexible workflow

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of ZEN D, which adapt to your business goals.

Advanced Reporting

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of ZEN Suite modules, including Balance for your finances and Enhance for your service operations.
